

# East Haven Visitor Questionnaire

Thank you for taking the time to complete this questionnaire. This study aims to investigate the conservation and management of the East Haven coastline, assessing the efforts being made to protect the area from coastal erosion and rising sea levels. East Haven is a vulnerable coastal community, and local initiatives, such as those led by East Haven Together, play a crucial role in maintaining its natural environment and heritage. Your responses will help provide valuable insight into the effectiveness of current coastal protection measures and their impact on both the landscape and the local community. Your input is greatly appreciated.

## 1. How often do you visit East Haven?

Daily

Weekly

Monthly

Seasonal

Yearly

Never
